It is becoming increasingly popular to grow your own vegetables, whether it is in a garden plot or in pots. A lot of people don't bother because of the expense involved, with so many tools, equipment, seeds, fertilizers, and chemical sprays. But, what if you could do the same job using things you have around the home?

Learning the many different gardening hacks included in this book, will help you create the garden of your dreams, and enable you to supply yourself and your family with the freshest, and healthiest of vegetables. At least by growing them yourself you know what has been put on your vegetables.

Gardening needn't be an expensive exercise if you know what you are doing. For almost every tool or treatment you will need there will be a natural or homemade alternative. Your

garden doesn't need to be 'boring' either, and there are ways to make it look attractive as well as serve a purpose.

Here are some of the hacks you will find in this book:

- Regrowing Vegetables
- Different Types of Planters
- Pest Control
- Weed Killers and Fertilizers
- Garden Tools
- Germination and Seedlings
- Protecting Your Plants
- Tips For Sweet Tomatoes, Rose Cuttings, and Hydrangea Colors
